

Senior Project Manager

Job Code: 2018-PCO-043

Location: Columbia, SC & Augusta, GA

Job Type: Transportation

FT/PT Status: Full Time

Job Responsibilities:

We are currently in search of a Senior Transportation Project Manager to **lead and direct** the development and design of infrastructure projects for roadways, including intersections, collector streets, urban arterials, rural and urban expressways, interstates and interstate interchanges. This position will work in our Transportation & Community Development division which serves the firm by providing engineering and planning expertise to our clients in city, state, federal and commercial projects worldwide. The position would allow great growth opportunities working with a talented and diverse Transportation Group.

The ideal candidate would be innovative and entrepreneurial and help advance and grow the current services provided by Pond.

Job Qualifications:

Requirements

- Project Management experience with transportation infrastructure projects, which may include cost estimates, technical reports, construction plans and project displays.
 - Proficiency with AASHTO and relevant state DOT design standards and policies.
 - Working knowledge of developing and designing federally funded project involving compliance with National Environmental Policy Act (NEPA) is critical.
 - Excellent communication skills, both verbal and written.
 - 10-15+ years of experience in roadway design**
 - Bachelor's degree in Civil Engineering**
 - Professional Engineering License**
 - Must have experience giving presentations and managing client expectations.
 - Strong organizational, analytical and problem solving skills and be a self-motivated, team-oriented and flexible individual who possess the initiative and ability to tackle new projects, challenges, and concepts
 - Strong oral and written communication skills, and a demonstrated ability to coordinate meetings, conduct effective client presentations and prepare written reports.
- This position requires a current valid driver's license and clean driving record

Preferred Experience Requirements

- Experience working with South Carolina Department of Transportation and other local Cities and County governments.**
- Active Participation in regional and/or national professional associations.
