

## **Project Engineering Manager (Open Positions: 4)**

**Location:** Richland County Administration Building, Columbia, SC 29204

**Department:** Transportation Tax

**Division:** Transportation Penny

**Job Status:** Full-Time

**Shift:** 8:30 AM - 5:00 PM

**Days Worked:** Mon., Tue., Wed., Thu., Fri.

**Rate of Pay:** TBD - TBD

**Status:** Open Until Filled

The purpose of the class is to serve as the Manager of the Transportation Program for all projects funded by the County Penny Transportation Program. This class will work within the Transportation Department to implement and manage all aspects of the Transportation Penny Program. This class has expertise of transportation planning; project scheduling; surveying; engineering and design; right-of-way acquisition; utility coordination; permitting; cost estimating; construction plan review; construction procurement; value engineering; construction contract management; construction inspection and standards; field revisions; and conflict resolution. This class will also work as a liaison to other government and public entities, such as the Richland County Department of Public Works, the City of Columbia, the South Carolina Department of Transportation, various homeowners associations and the general public regarding Transportation Penny projects. This class provides in-house transportation engineering project management from design to completion. This class plans, organizes and implements the aforementioned project types within organizational policies. This class shall perform related professional, administrative and supervisory work as required in support of all Transportation Penny items. This position reports directly to the County Assistant Director of Transportation.

Requires Bachelor's degree in civil engineering, project management or a related field. Requires a minimum of six years of relevant experience.

Preferred license as a registered Professional Engineer in the State of South Carolina. Must possess a valid state driver's license.
